UX/AI designer with five years across mobile games and fintech. At Knomee, a fintech for financial advisors, I design the client app's gamified Adventures and the advisor dashboard, and I built the coded prototype the team uses for handoff, sales demos and user tests. Before that, I designed systems, live ops and onboarding for four mobile games at By Aliens. I design for AI and with it, and I prototype in code with Claude Code.

EXPERIENCE

Knomee
Jun 2024 – now

UX & Gamification Designer · Fintech · San Francisco · Remote

- Designed the client app's Adventures, short questionnaires that build a Financial ID clients can share.
- Designed the advisor dashboard: readiness scores, segmentation, alerts and conversation playbooks.
- Designed an AI voice shortcut that turns what a client says into an in-app action.
- Built the coded prototype with Claude Code, used for handoff, sales demos and user tests (643 merged pull requests).
- Made the activation toolkit and the pitch deck, and built the product video in code with React and an AI voice-over.

By Aliens
Jul 2022 – May 2025

Game & UX Designer · Game studio · Dubai · Remote

- Smashing Four: designed a new hero (Bloodbite), redesigned Hero Event 2.0, rebalanced underused heroes from player data, and ran live ops: events, season pass, news and in-game content.
- Auction City: designed the Hunter Pass season pass, the best-selling SKU from its launch on; rewrote the onboarding; designed a Statues system and a gacha concept.
- We Are Illuminati: created a late-game area (A.I.) with 10 situation cards, redesigned the main screen, wrote a side story with three endings, and designed ads and in-app purchases.
- Idle Planes: tuned pacing and the upgrade economy, ran UX reviews and designed three minigames.

Betsie
Jul 2024 – Nov 2024

UX/Product Design Consultant · Startup · San Francisco · Remote

- Added gamification to a social betting app: onboarding, scoring and feedback.
- Delivered a clickable prototype and a showcase video for the pitch.

PROAC
Aug 2021 – Aug 2022

Game Design Intern · Cultural grant · São Paulo · Remote

- Worked on systems and gameplay for an experimental mobile game funded by a São Paulo cultural grant.

Lumen Games
May 2021 – Jul 2022

Producer / Game Designer · Game studio · Aracaju · Remote

- Managed art production and the technical pipeline for Hemp Paradise.
- Ran the live game: events, news and content. Designed retention and monetization events.
- Analysed playtests and turned the findings into design changes.

HIGHLIGHTS

643 merged PRs on the Knomee coded prototype

58 screens across advisor, firm and client views (Knomee)

5 gamified Adventures in the Knomee client app

6 commercial games and apps I've worked on

15 games I made in university and at game jams
