Victor Mascaro

UX/AI Designer • Game systems, gamification & AI

São Paulo, Brazil • UTC-3 • Remote

UX/AI designer based in São Paulo. I've worked on mobile games since 2021 and on Knomee, a fintech product for financial advisors, since 2024. Most of my work is on onboarding, progression and gamification. I design for AI and with it, and I build my prototypes in code with Claude Code.

EXPERIENCE

Knomee
2024 – now

UX & Gamification Designer • Fintech • San Francisco • Remote

- Designed the client app's Adventures, short questionnaires that build a Financial ID clients can share.
- Designed the advisor dashboard: readiness scores, segmentation, alerts and conversation playbooks.
- Designed an AI voice shortcut that turns what a client says into an in-app action.
- Built the coded prototype with Claude Code, used for handoff, sales demos and user tests (643 merged pull requests).
- Made the activation toolkit and the pitch deck, and built the product video in code with React and an AI voice-over.

By Aliens
2022 – 2025

Game & UX Designer • Game studio • Dubai • Remote

- Smashing Four: a new hero (Bloodbite), rebalancing, Hero Event 2.0 and live ops: events, season pass, news and in-game content.
- Auction City: the Hunter Pass season pass, the best-selling SKU from its launch on; new onboarding, a Statues system and a gacha concept.
- We Are Illuminati: a new late-game area (A.I.) with 10 situation cards, a clearer main screen, a side story with three endings, ads and in-app purchases.
- Idle Planes: pacing, upgrade economy, UX reviews and three minigames.

Betsie
Jul – Nov 2024

UX/Product Design Consultant • Startup • San Francisco • Remote

- Added gamification to a social betting app: onboarding, scoring and feedback.
- Delivered a clickable prototype and a showcase video for the pitch.

Lumen Games
2021 – 2022

Producer / Game Designer • Game studio • Aracaju • Remote

- Managed art production and the technical pipeline for Hemp Paradise.
- Ran the live game: events, news and content. Designed retention and monetization events.
- Analysed playtests and turned the findings into design changes.

PROAC
2021 – 2022

Game Design Intern • Cultural grant • São Paulo • Remote

- Worked on systems and gameplay for an experimental mobile game funded by a São Paulo cultural grant.

HIGHLIGHTS

643	merged PRs on the Knomee coded prototype
58	screens across advisor, firm and client views (Knomee)
5	gamified Adventures in the Knomee client app
6	commercial games and apps I've worked on
15	games I made in university and at game jams
